

It's time for us to
stand up and say
Step It Up Congress!
Cut Carbon Emissions
80% by 2050

Sat April 14th 12-2 pm
Independence Mall
6th & Market St, Philadelphia

stand up and say
Step It Up Congress!
Cut Carbon Emissions
80% by 2050

Sat April 14th 12-2 pm
Independence Mall
6th & Market St, Philadelphia

Join your neighbors in Philadelphia
in the national citizen's movement
(www.stepitup2007.org)

to let Congress know that reducing
global warming is absolutely
critical. The US must do something
to slow climate change before it's
too late.

Rally at Independence Mall, and let
Congress know that we must cut
carbon emissions by 80% by 2050
in order to stabilize the climate
and leave a legacy for our great
grandchildren of which we can be
proud.

There will be speakers, music,
entertainment and a petition to
sign to send to Congress. There
will also be information booths and
resources.

Bring the family! Add your voice!
